

Co-Curricular Activities

† Chapel

Chapel is held on a weekly basis and serves as a time when the whole student body can come together for community worship. Through the chapel program, students serve needs in the community by collecting canned foods, used clothing, raising money to find a cure for leukemia, making greeting cards, and the like. An upbeat worship style with applications of Biblical truths to their lives greets the students every Wednesday morning. All parents are also invited to come and participate in praise-filled worship.

† Student Council

Students in grades 4 – 8 are allowed to serve their classmates, school community and the general community through an organized Student Council. The Student Council is responsible for the school-wide recycling program as well as for determining which charitable organization the weekly chapel offering will support. Students can serve in an elected position as an officer, committee member, or as a representative of their class. Positions of leadership include President, Vice President, Treasurer, Secretary, Environmental Chair, and Community Outreach.

† Enrichment Programs

The school's Parent Teacher Organization facilitates the After School Enrichment Program, a program that serves to allow students to experience multiple opportunities to either learn something new or grow in the knowledge already acquired. Offerings change on a periodic basis and are held immediately after school, so as to better accommodate parents schedules and have included the visual and performing arts, athletics, and Mad Science.

† Athletics

It has been discovered in the process of the school's self-study for receiving accreditation that there is an increased desire for a school-sponsored after-school athletics program. This is a program that will require some planning and development. BLS looks forward to working with our parents to make this another enriching experience and opportunity for our families

WHAT OUR PARENTS SAY ABOUT BETHANY

"Bethany is more than 'just a school'. It is an extension of family. I am able to serve my country knowing that my children and family are secure in the Bethany Family. I am able to focus on my duty to defend our country because my family has a strong network available to them if needed." Chris Thrasher
