

The Healthy Schools Act of 2000 (as amended by Assembly Bill 2865, Chapter 865, Statutes of 2006) requires that all schools and child day care centers provide parents or guardians of children who are enrolled at the facility with annual written notification of expected pesticide use at schools and day care centers. The notification will identify the active ingredient or ingredients in each pesticide product and will include the Department of Pesticide Regulation's School Integrated Pest Management (IPM) Web site (<http://www.schoolipm.info>) for further information on pesticides and their alternatives. We will send out annual notifications starting August 1, 2016.

Parents or guardians may request prior notification of individual pesticide applications at the school or day care center. Beginning August 1, 2016, people listed on this registry will be notified at least 72 hours before pesticides are applied. **Please complete and return the form below only if you would like to be notified each time a pesticide is applied.**

If you have any questions, please contact Bethany Lutheran Preschool at (707) 451.6678.

REQUEST FOR INDIVIDUAL PESTICIDE APPLICATION NOTIFICATION

Bethany Lutheran Preschool

I understand that, upon request, the public school district or child day care center listed above is required to supply information about individual pesticide applications at least 72 hours before application. I would like to be notified, by email, before each pesticide application at the site listed above.

Please print neatly:

Name of Parent/Guardian: _____ Date: _____

E-mail: _____
