

First Grade Newsletter

February 1, 2019

This week, in First Grade, we celebrated the 100th day of school! We had fun writing numbers to 100, creating books about 100 and collaborating with classmates to create a structure using 100 cups. In Math, we learned about solid shapes, including edges, faces and corners. We also continued to practice subtraction and addition. In Reading, we read a non-fiction story called "Going to the Moon!". We also continued to study about "Things in the Sky" in Science which created a great cross-curriculum experience between Reading and Science. First Graders have discovered a big interest in the subject! In Language Arts, we learned how to write a well-structured question. As an extra-curricular activity, we enjoyed making pizza dough with the help of some Bethany parents. The dough and recipe went home with your child yesterday. In Bible, as we celebrated "Lutheran Schools Week", we talked about how God's word is real and true.

We are about to "wrap up" our Auction Project and Raffle Basket. If you have not donated a gift card yet and plan to, please send it to school as soon as possible. The Auction is Friday, February 9. All ticket sales will end on Monday, February 4 at 5 pm!

We will have an in-class Valentine party on Thursday, February 14. I ask that students sign their own valentines. We have 17 students in our class. I am planning to have an ice cream sundae bar on this day. Please see the sign up sheet outside our classroom door for items needed, beginning Monday, February 4.

Save this date! On Sunday, March 10, Bethany students will sing during a morning church service at Bethany Lutheran Church. Please watch for coming details.

Thank you for your continued support!

Mrs. Thomas
