

# First Grade Newsletter

## November 1, 2019

This week, in First Grade, we practiced addition strategies through the number ten. We are working hard at "counting on" from the bigger number to find the sum. In Language Arts, we studied different ways to make a word plural and we learned how to put words in "ABC" order. In Reading, we read a biography about Dr. Seuss. We discussed rhyme and poetry through his many wonderful stories. If your child is struggling with reading, Dr. Seuss books are a great resource. So much rhyme and repetition. In Science, we continued to study plants. We completed our experiment which examined the effect of sunlight, water and air on plants. Ask your little scientist what they discovered! In Bible, we read the exciting story of "Samson".

Thank you to everyone who took the time to attend conferences! It was great to have some time to meet individually and discuss your child. Remember, today is a free dress day for all students whose parent(s) attended conferences!

Again, a big thank you to Tina Abbate and crew for all their hard work and creativity to make our classroom "Trunk or Treat" such a success! The kids had a great time!

Another thank you goes out to all our parent drivers and chaperones for this week's field trip to "Bobby Dazzler's Pumpkin Patch". This event would not have been possible without your help! Make sure you submit your partnership hours!

Remember to set your clocks back one hour this weekend!

Have a blessed weekend.

Mrs. Thomas
