We had a busy week back from break this week. Our letter of the week was G g and our Word Wall words were 'find' and 'this'. We read books all about insects and their different characteristics. In math we counted dimes and learned how to pay for different things up to $1.00 using dimes. This is a great skill to continue to practice at home. For Bible we read about Jesus healing ten sick men. In social studies we learned about different kinds of maps and drew a map of our classroom. They turned out great! In science we learned about machines and how they help us every day. We learned work words like push, pull, lift and scoop. We even got to pretend we were big excavators!

There has been a change to our schedule next month. Our next minimum day will be on Friday, March 19th instead of the 26th. This is due to the teacher’s Covid vaccination schedule change. Thank you to everyone who continues to donate cleaning supplies. We are so grateful for everything!

Have a great weekend!

Mrs. Fernandez and Miss Mathews
