First Grade Newsletter  
March 5, 2021

This week, in First Grade, we used Dr. Seuss' birthday to encourage and practice Reading and Writing concepts. In Math, we learned how to add double digits (without regrouping) and continued to practice even and odd numbers, counting by 5's and 2's. In Science, we learned how we can save the Earth's resources. We learned the key words, reduce, reuse, and recycle. In Bible, we continued to learn about Jesus' great love for us through the story "Jesus Feeds the Crowd". Through this story we discussed the difference between a want and a need and the difference between the things our bodies need (food, shelter) and the things our souls need (Jesus, the Word of the Bible).

I would like each student to bring in an empty, clean can to class by Monday, March 8th. Students would like to extend this week's Science lesson and repurpose the can. We plan to make our own pencil holders! Also, please look closely at this week's "Homework Packet" for a special S.T.E.M. project!

Thank you for your prompt response to cleaning items needed in our classroom. We have everything we need for the moment! However, if it is your turn to bring in your "Consumable Supplies" please don't forget.

If you are in need of partnership hours and would like to help with our school garden, please contact Mrs. Rush in the office at 451-6683.

Friday, March 19th, is a minimum day. all students will be dismissed at 12 noon. Extended Care is available.

Thank you for your continued support!

Mrs. Thomas
