

Hello First Grade Families!

We had a fun week celebrating Dr. Seuss' birthday. In ELA we read, Tomas Rivera learned about the sounds, oa and ow, future tense and using contractions. In Math we continued learning about telling time, color graphs, counting money and symmetry.

I have sent home the homework packet, but have included the directions for our St. Patrick's Day leprechaun trap. This project is due on March 17th. The homework packet is due March 12th.

There is a 2nd sheet attached to the directions for the leprechaun trap, which is where your student will write down the three steps on how the trap works. Each student will do a presentation of his/her trap.

Next Friday, March 12th is Sports Theme Day. Students can come dressed in their favorite team's tee shirt or jersey and jeans. If your student wishes not to dress in a Sports Theme shirt, regular uniform is fine. It is also not a minimum day.

Thank you for all the donations of disinfectant wipes, disinfectant spray, kleenex and bathroom cups. We are running low on copier paper if any family is interested in donating (any donations with receipts goes towards partnership hours and are greatly appreciated!

Have a great weekend!

Mrs. Campos
