

Kindergarten Newsletter

April 15, 2021

This week has been filled with thoughts of summer and warmer weather! Make sure your child is bringing a water bottle every day. Please make sure that they can open it and close it by themselves and that lids are secure. Afternoon recess can get warm, so we want to make sure all students have water to drink. In class we have been working on the words 'good' and 'said'. We have also been learning all about different animals. This week we learned about monkeys and elephants. We are prepping for our field trip to the Sacramento Zoo in May. Did you know that monkeys live in groups called troops? Or that elephants are herbivores? These are just a few fun facts we have learned. In math we learned left and right and did a lot of listening activities associated with left and right. This is an easy thing to practice at home, too.

As we near the home stretch of kindergarten we want to make sure you are focusing on completing homework packets, reading Rainbow Words daily and reading at night, too. We know this sounds like a lot but it is so important for all students. We want everyone to end kindergarten with confidence and on track to being the best reader they can be!

Have a great weekend!

Mrs. Fernandez and Miss Mathews
