April 30, 2021

How is this already the last day of April? It seems like this year is just flying by! This week in ELA we focused on the words 'he' and 'no'. Our letters of the week were Hh and Kk. We practiced correct formation of both letters and thought of a lot of words that start with both letters. For math we worked on following directions and continued to work with money. For Science we continued our animal unit and learned about flamingos and rhinoceros. We made the cutest 2D shape flamingos! Look for those to go home soon. We have enjoyed learning about many different types of animals in preparation for our zoo field trip.

Our field trip to the Sacramento Zoo is on Friday, May 7th. Please turn in your child's permission slip by Monday. If you volunteered to drive a child other than your own, please also get the parent driver form and copies of your license and insurance turned in as soon as possible. I have five students who will need rides. If your child needs a ride, please make sure they come to school with his or her car seat or booster seat. All students will need a sack lunch. We will not be eating in the zoo. We will find a place to eat in the park outside of the zoo. Masks will be required while inside the zoo. A list of details for the entire trip will be emailed home soon. Please read it carefully. We are so excited for this opportunity! It will be so much fun.

Have a great weekend!

Mrs. Fernandez and Miss Mathews
