

Kindergarten News

August 27,2021

This week in kindergarten was busy! We started our Language Arts unit “Welcome to Kindergarten” which included having fun with rhyming and practicing familiar nursery rhymes. The students also began using their readers notebooks and writing letters. In math we worked on recognizing shapes and created a shape tree. The students also learned to write the number three and four. We finished the week making a graph chart of how many boys and girls we have in class. In social studies we talked about two very important community helpers! Police officers and firefighters. All homework was turned in this week! Great job! Look for this week’s homework packet in today’s Friday Folder. Remember to return our August Reading Logs once complete.

If you would like to donate any small items for our treasure box, you can send them in with your child or drop them off to me before or after school. Thank you!
