

## Kindergarten News

September 10,2021

This week was busy in kindergarten! It was our turn to lead chapel and the children did a great job singing!! We also did a great job sharing the story of Noah's Ark with the whole school! In class we continued to study the story of Noah's Ark and how Noah obeyed God and built an ark.

In language we learned the word "like" and read the story "How Dinosaurs Go to School". We continue with our small reading groups which include our daily readers and vocabulary readers. In math we continued with number writing practice and creating patterns. Science continued with animals and their habitats and we also learned about what plants need to grow and we planted our very own seeds in a cup with dirt and added water. Finally, we placed them in the window seal for some sunlight.

Picture day is coming up! It is Wednesday, September 15<sup>th</sup>.

All students must wear his or her chapel uniform with their chapel sweater. You will be able to place your picture order online, more information coming!
