

## Kindergarten Newsletter

February 11, 2022

What a fun week we have had! Book Fair was a huge hit! I'm sure most of you took a trip or two there this week. Our students picked out some really fun books. Thank you to the families who donated books to our classrooms, too. We made so many fun valentine's crafts this week. We are getting ready for our valentine celebration on Monday.

Remember to send valentines with your child on Monday if they will be handing them out. Please do not personalize them. Simply have your child write his or her name on the back. Each class has 15 students. Also, don't forget to send in the heart that you made for your child. We would like them by Monday so we can display them. In math this week we started learning about dimes. We counted dimes and pennies and comparted them. ELA was all about Curious George and his adventures to see different animals. We talked about verbs in the past, present and future tense. In science we learned about our hearts! We learned what a heart does and how big our own hearts are. Hearts are amazing!

Priority registration is happening now. Returning families get first priority to register their child for school. Please take advantage of this so your child is guaranteed a spot for next year. We would love to see all of our amazing kindergarteners as big first graders next year and our awesome TKers as big kindergarteners!

Have a great weekend!

Mrs. Fernandez and Mrs. Jamison
