May 13—May 17	SAT10 Testing

### Mr. Ingersoll's Classes

[joshua.ingersoll@gobethany.com](mailto:joshua.ingersoll@gobethany.com)

**Bible:** The memory verse for this coming week is 1 Corinthians 13:4-5. There will be a test on Unit 4 on Monday, then we'll spend the rest of the school year working on our chapel takeover which will be on May 29.

**6th-grade Science:** This week we finished up unit 2 lesson 6. There will be a short quiz on it on Monday, then we'll start on unit 2 lesson 7, which is the last lesson of the school year.

**7th/8th-grade Science:** This week we got through unit 4 lesson 1 and started on lesson 2.

This coming week, we will work through lesson 2.

**6th-grade Tech:** The students have been working on their first program in scratch where they designed the code themselves. Friday will be the last day for them to work on it before we move on to our next project. We will have a practice SAT on Wednesday.

**7th/8th-grade Tech:** This week, the students finished working on styles in their HTML project and learned how to add an image to a webpage. Next week, we'll have a practice SAT on Wednesday, then we'll continue to go over some more HTML elements and add them to their existing project.

**Art:** This week we went over color theory and the students painted their own color wheels. Next week we'll talk about value, and the students will work on a project where they finish drawing half of their own face from a half-picture.

**Ms. Cindy**

**Sixth grade homeroom/MS English/Spanish**

[cindy.ulloa@gobethany.com](mailto:cindy.ulloa@gobethany.com)

**Bible-** our verse of the week is Psalm 145:9

**IXL Middle school Competition!!!!**

**1st place: Xlan Andan**

**2nd place: Lucas Honda**

**3rd place: Aiden Palman**

Middle school is competing to get as many mastered skills as they can on IXL between now and May 10th. This is to help them with test taking before we start SATs. PLaced winners will receive a prize! Goodluck!

**6th grade:** We will be reading 9-12 this week and wrapping up A Wrinkle in Time. They should be studying their vocab words and reading a chapter every night

**7th grade:** They will be finishing up a writing assignment on The Giver and then taking the test. After we will be focusing on grammar and the textbook.

**8th grade:** We will be working on our Maus project. They will have to research a theme and compare it to what happened in the story. This is going to be a long project so we will be working on it together as well as taking trips to the library for research.

## **Mrs. Roberto**

[trisha.roberto@gobethany.com](mailto:trisha.roberto@gobethany.com)

**Eighth Grade - World Civilizations**

**Seventh Grade - United States History**

**Sixth Grade - World Civilizations**

**8th Grade- We will finish up Module 27, World War II this week.**

**7th Grade- Students have begun Module 16, Reform Movements in the United States. This module has a lot of similar information from the previous module so we will breeze through it with no formal test. We will then begin Module 17, A Divided Nation. All work will be completed during class.**

**6th Grade- Students have begun Module 15, Later Chinese Dynasties. Students are working in groups of 2 or 3 and taking notes on their assigned lesson. Upon completion, students will create a powerpoint and present to the class.**

Mrs. Robertson

MATH

[Alisyn.Robertson@gobethany.com](mailto:Alisyn.Robertson@gobethany.com)

This week we worked through lessons 96-99. Next week we will finish lesson 100 and then review and take test 20.

## P.E.

[andrew.randolph@gobethany.com](mailto:andrew.randolph@gobethany.com)

This year during P.E., my goal is to help all students gain a better understanding of various sports, build teamwork and relational skills, and find some sort of enjoyment in the realm of physical fitness.

We have finished up our Basketball unit, and are moving on to Football next. This past week has been a transition week between units, as always focusing on physical fitness training. This training check in is for individuals to work on different aspects of health and fitness. Grades for this training are based solely on effort output and time improvement. (If a student's time is excessively less than before, indicating lack of effort, their grade will be a reflection of that.)

As we get ready to start our football unit, student's will be reminded of our all encompassing goals of having good sportsmanship, challenging themselves to learn new things, being good leaders by example, and giving opportunities for each person to contribute. Football rules and regulations will be explained only in part for this unit. While we will go over rules of normal American Football, the play will be centered around Flag Football rules. The differences between the two will be discussed and explained as well, using Flag Football rules for precautions and safety reasons.

"If it doesn't challenge you, it won't change you." -Fred DeVito

## 7th and 8th Grade Cooking

This week we made homemade macaroni and cheese. The students did a great job and we had a lot of fun exploring how to boil water (like that we need an adequate amount of water in the pot!) and what to do when the sauce is too runny. Everyone did a great job problem solving and it was a lot of fun. I will attach the recipe below! Next week, we are going to make chocolate chip cookies :)
